I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I would oppose any legislation that would limit the amount of any type of "prescribed by my doctor because it works for me" compounded medication. State lines my ass. If men or women need it - it should not be limited!
